** ARGENTINA [non]. 9455, Tue Jan 28 at 2301, quite by chance into BST1 caradio, `Atividade DX` pgm in Brasuguese from RAE relay on WRMI; lots of DX news compiled by Arnaldo Slaen including credited to me the Spain B24 schedule. Later a report that R. Omdurman, Sudan is well-heard in southern S America from 0400 on 7200. ?? Well, it used to be on 7205 but AFAIK has been inactive for some years. Later on home rx, RAE PP still going at 2347 with multi-lingual ID; and S Texas SDR also gets it on listed // 7780. Trouble is, neither frequency aims at Brasil, which might be helpful: 9455 to NW and 7780 to SW (Glenn Hauser, OK, WOR)

** BRAZIL. 9665v, Jan 29 at 0655, NO signal from RVM, must be off. At 0701 a JBA carrier about 11750, but could be China. Need to keep checking for RVM also on 5940- despite WWCR, Nothing on any of the 3 into Bonaire at 1850 (Glenn Hauser, OK, WOR)

** CANADA [non]. Sean Welsh replies to my previous report: ``Hi Glenn, Canadian Content Radio was a bit of both Canadian Content and my likes; depended on what the request load looked like and what I had been listening to prior to producing the show. Some programs had no Canadian content other than my commentary. There will be no repeats of previous shows. 1/23/25 was the final edition -- for now`` (Glenn Hauser, OK, WOR)

** CHINA. 6180, Jan 26 at 1553, JBA algo is the OSOB this late after Enid sunrise 1337 UT today. EiBi shows possibilities: R. Taiwan Int`l in Mandarin from site s=D/Tanshui, so of course it`s CNR1 or Firedrake jammer from site f=Fuzhou = per Aoki Fujiang. But also CRI Russian via Urumqi; so in effect, ChiCom are also jamming their own Russian broadcast, altho widely apart geographically (Glenn Hauser, OK, WOR)

** CUBA [and non]. 1040, Jan 27 at 0309, wobbler audible under WHO; also try 870 and soon 0310 also hear a bit under WWL. Later, Greg Hardison using a FL remote was hearing a new? wobbler on 1000, plus an unID Spanish on 1005 kHz (Glenn Hauser, OK, WOR)

** CUBA. 5800, Jan 23 at 0724, lite pulse jamming against nothing, long after WRMI is off this frequency. Presumably prompted by `Freedom Synergy Radio` which is axually pro-Taiwan, anti-ChiCom, had been scheduled at 0300-0400* on WRMI-10 5800, from System B, and maybe still is. Shown only on the freq sked block, nowhere in the program skeds. System B otherwise means 9955, where it`s not scheduled either. IIRC, R. República was also on 5800 for a while, forever damaging it, as once jammed, a frequency forever subject to be torn up by the incompetent DentroCuban Jamming Command (Glenn Hauser, OK, WOR)

** CUBA. 7365, Jan 27 at 0341, pulse jamming against nothing, S9+10 vs S9 noise level, while R. Martí is unscathed on 7355 (Glenn Hauser, OK, WOR)

** CUBA. 9790, Jan 27 at 0347, CRI English relay S9+20, nothing but some weak unreadable spikes at modulation peaks. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 11860 & 11930, Jan 29 at 0703, pulse jamming about S3/S4 vs nothing, R. Martí frequencies only in daytime. Before 0700, would have QRMed Romania in English from 0630, foolishly chosen 11930 (Glenn Hauser, OK, WOR)

** GERMANY. 9670, Jan 29 at 0655, ME? music with drumming, S8/S9, too strong for Channel 292, else? NO, at 0700 it *is* 292 with Germenglish ID: even during German they pronounce 292 in English. BTW, no Brasil 9665v ACI (Glenn Hauser, OK, WOR)

** INDIA. (15280), Jan 26 at 0430-0630, Republic Day parade in Delhi supposed to be on SW, but I don`t even try as this is a visual spectacle, easily seen on DD KISAN stream LIVE via https://prasarbharati.gov.in/live-tv/
At first there were countless military units, unless a band playing, everyone goosestepping and matching each step by hoisting left arm with a white glove. Huge variety of very decorative uniforms. Also missile launchers and other hardware. Eventually moved on to numerous non-military floats, putting the Rose Parade to shame; and finally flyovers. Occasional English commentary mixed with Hindi. Interspersed with shots of stoic leaders observing, PM Narendra Modi, President Smt. Droupadi Murmu; also a guy under a big black fez, Indonesian Pres. Prabowo Subianto visiting. See them both here: https://www.presidentofindia.gov.in/
Huge crowds lining the route. Wide shots could not hide the smog in the distance. Certainly worth viewing. Ron Howard provides the ondemand link totalling 5:17:45: https://www.youtube.com/watch?v=1epRYt0qsiA
Here`s a half-sesquihour version emphasizing the military, starting with horseback: https://www.youtube.com/watch?v=evW5h-YrjQA
(Glenn Hauser, OK, WOR)

** JAPAN. 11825, Jan 29 at 0702, classical music at S5/S7, presumably NHK in Japanese as listed (Glenn Hauser, OK, WOR)

** MADAGASCAR. 13760, Jan 27 at 0354, English closing listing some times and frequencies, S9 = noise level minus some deep fades. Including 800 hours, and 6110 = KNLS at 08 on 6075 and 14 on 6110, for this is WCB`s otherstation, MWV, English to India at 02-04. ``We leave you with Taylor Swift...`` Per EiBi, overlaps with VOK 13760 to Latin America at 03-09, starting with Spanish but no sign of that (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 AM, Jan 27 at 0339, S9+10 of undermodulated music: a few reports here as R. Free Euphoria: https://www.hfunderground.com/board/index.php/topic,140169.0.html
6970 AM, Jan 27 at 0340, JBA unID pirate. none reported in HFU (Glenn Hauser, OK, WOR)

** OKLAHOMA. 95.1 & 1670 unlicensed Enid stations continue as before circa 21 UT Jan 24 (Glenn Hauser, Enid, WOR)

** OKLAHOMA. RF 17, Jan 27 at 0551 UT and still 1605, NO signal from Enid`s only local TV, K17JN-D. All multi-channels off. Perhaps if and when resumed, 3ABN will include audio on 17-1 unlike that past several weeks? Ahá, all back on by 2340 including sound finally on 17-1 (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Fri Jan 24 at 2300, token English from SNR, S9+10/25 into Maryland SDR, no news but discussion of Gaza situation; other frequencies not checked (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Wed Jan 29 at 2300, token English from SNR, 9690, VG into Maryland SDR, feature to be about Spain`s preliminary competition for Eurovision Song Contest; news starts with this being the trimonthiversary of the Valencia storm which killed more than 200, and controversy about how the governments handled it. Other frequencies not checked until 2346 after English. Zero signal on 12030, presumed off; visible traces only of 17715 & 17755 (Glenn Hauser, OK, WOR)

** TURKEY. 6125 & 7285, Jan 27 at 0404, no signals direct from TRT English, no loss since no `Letterbox` and no VOT (Glenn Hauser, OK, WOR)

** U S A [and non]. 3955 LSB, Jan 29 at 0649, ham QSO with QRDRM, right smack dab amid BBC Woofferton DRM hour 3950-3955-3960; one may have mentioned some noise. N5KDH with definite fonetik call, per ARRL: ISTRE, DOUGLAS J, N5KDH, 1610 DEER PARK DR, VIDOR, TX 77662. The other sounded like K5EEN or K5EDN (Glenn Hauser, OK, WOR)

** U S A. Searching for JBA MCW ND beacon carriers, Jan 24 at 0712-0721 UT: best guesses in (), otherwise IDs heard:

209 kHz: (ITR Burlington CO)
227 kHz: (TNZ Walnut Ridge AR)
245 kHz: FS, Sioux FallS SD, tuned to 244 USB
251 kHz: (AM Amarillo TX)
272 kHz: (OLY OLneY IL)
305 kHz: RO ROswell NM, mixing with: (OI sOuth sIoux City NE)
(Glenn Hauser, OK, WOR)

** U S A. 280 MCW kHz, Jan 27 at 0724 UT, JBA carrier. DXinfocentre.com shows the only 280 anywhere is GYZ, Guernsey / Camp Guernsey WY, 50 watts. RNA list shows 3 more in S America, but no others in USA. This is between Torrington and Wheatland in SE Wyoming (Glenn Hauser, OK, WOR)

** U S A. 26110 NBFM, Sun Jan 26 at 1541 UT, talk at S5/S6, not nearly enough for full quieting, no doubt KMK282, Stockton/Sacramento, cuing auxiliary of KOVR/KMAX (Glenn Hauser, OK, WOR)

** U S A. 26110 FM, Jan 29 at 1635, S5/S6 news, no doubt KMK282, aux of KOVR/KMAX Stockton/Sacramento, too weak for full quieting (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2278 monitoring: ``9955, 0100-, World of Radio Jan 19 {UT Sun} Glenn's own program at good to very good level into Masset, even though transmitting in the opposite direction! (Walt Salmaniw, Masset, BC -- Enjoying the world of radio from my remote QTH on Haida Gwaii off the NW coast of BC, Canada``

Also confirmed UT Thursday January 23 at 0136 the 0130 on WRMI 5010, poor S6/S8 into Maryland SDR; Bonaire not available; JBA direct.

Also confirmed Thursday January 23 at 1730 on SW Radio, Germany, 3975.002-, S8/9+5 into UTwente.

WORLD OF RADIO 2279 contents: (Armenia), Austria, Azerbaijan and non, Bulgaria, Canada and non, China, Cuba, Denmark, (Estonia), Finland and non, France, (Germany), Korea North, Kurdistan non, Mongolia, Netherlands, Perú and non, Romania, Saudi Arabia, (Slovakia), Taiwan, Tibet non, (Turkey), UAE, UK, USA, Uzbekistan, Vietnam, (Yemen non); propagation outlook - (countries mentioned along with others not in order)

0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.

Thanks this week for a contribution from Michael Beu, KD5DSQ, Austin TX in US funds but not necessarily, via PayPal to woradio at yahoo.com and says, ``Thanks, Glenn, for your efforts with WOR - info provided much appreciated. HNY and Good DX for 2025.``

One may also contribute by MO or check in US funds on a US bank to Glenn Hauser, P O Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2279 monitoring: confirmed first SWBC, Friday January 24 at 1300 on WRMI 15770, S6/S7 direct.

Missed checking Fri Jan 24 at 2130 on IRRS via 1323-Italy; anyone hear it?

Confirmed Friday January 24 at 2300 on WRMI 9955, JBA S6/S8 into Brasília, JBA into Lima, supposedly reactivated Cundinamarca remote gets nosigs; S7/9+5 into Maryland SDR.

Confirmed Friday January 24 at 2333 the 2330 on SW Radio, Germany, NG into UTwente, but S9/+10 into Castlebar, central Ireland. Next:

0400 UT Saturday WTWW 5085 [has been off the air];
0930 UT Saturday WRMI 9455 to WNW [has been off air; or 7730];
1530 UT Saturday SW Radio, Germany 6160;
1830 UT Saturday SW Radio, Germany 3975;
2030vUT Saturday WA0RCR 1860-AM [2000/2200];
0000 UT Sunday WTWW 9475 [suspended];
0100 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];

0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2279 monitoring: 5085 WTWW still OFF, at 0400 UT Sat Jan 25.

Happened to awaken circa 0945 UT Sat Jan 25, but 9455, 7730 and all WRMI frequencies still off so could not confirm whether WOR aired then on either.

Confirmed Saturday January 25 at 1534 the 1530 on SW Radio, Germany, 6160.000+, S9+5/15 into UTwente with usual ChiCom ACI from 6165, evitable by LSB tuning and/or narrowed bandwidth.

Also confirmed Saturday January 25 at 1700 on WRN North America webcast.

Also confirmed Saturday January 25 at 1830 on SW Radio, Germany, 3975.001+, S9+5/15 into UTwente.

Not confirmed Saturday January 25 at 2030 on WA0RCR, 1860 AM, MO. Nearby SDR in MO is offline, but not even a carrier detected via other remotes in IL, IA, nor direct, so OFF? Might have something to do with `Winter Field Day` contest, lots of 10m activity. I keep checking 1860 later and by 2348, WA0RCR is JBA in Peoria, and by 2413, S6/S7. I still suspect it was off earlier.

WOR 2279 also confirmed Saturday January 25 at 2043 the 2030 on WRN North America webcast.

Also confirmed Saturday January 25 at 2100 on WRN Europe webcast.
Next:

0100 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];

2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2279 monitoring: confirmed UT Sunday January 26 at 0100 on WRMI 9955, S9+5 into Maryland SDR.

Also confirmed UT Sunday January 26 early from 0402 UT the 0415v on WA0RCR, 1860 AM, following ARRL news. Nearby Warrenton MO SDR still offline; not playing well in Peoria, where 1860 has distorted QRM from

a Peoria broadcast station - some overload, not an harmonic, no 930 locally. Best into far Maryland SDR, S7/S9 with no such problem. Also heavy CW QRM due to some contest, Winter Field Day. CW is authorized for entire 160m band, 1800-2000 but normally plenty space without hitting 1860. See https://wa0rcr.com/sched.html
Next:

2000 UT Sunday IRRS 1323-Italy;

2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2279 monitoring: confirmed Sunday January 26 at 2000 on IRRS SW via AM Italia, 1323 kHx, S6/S7 into nearby Parma SDR.

Also confirmed Sunday January 26 at 2127 the 2100 on WRN Europe webcast.

Also confirmed Sunday January 26 at 2258 the 2230 on SW Radio, Germany, 3975.002+, S6/S7 into UTwente.

Also confirmed Sunday January 26 at 2330 on WRMI 7570 AND 7780, still, both S9/+12 into south TX SDR, but 7570 seems weaker, a bit further off the azimuth to NW vs SW for 7780 from Okee.

Also confirmed UT Monday January 27 at 0030 on WRMI 7780, S9+5/20 into S Texas SDR.

Also confirmed UT Monday January 27 at 0419 on Area 51 webcast only, 18 minutes into so must have started at 0401. Earlier I was monitoring 5130- direct to hear what would happen. 0400 nondescript music playing until 0403* chop without a WORd, whew.

Also confirmed Monday January 27 at 2030 on SW Radio, Germany, 3975.002-, S7/S9 into UTwente. Next:

0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2100 UT Tuesday IRRS 1323-Italy;
0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2279 monitoring: confirmed UT Tuesday January 28 at 0330 on WRMI 7780, VG S9+10/15 into S Texas KiwiSDR.

Also confirmed Tuesday January 28 at 1400 on WRMI 9955, JBA S6/S8 direct.

Also confirmed Tuesday January 28 at 1509 the 1500 on WRMI 9955, JJBBA direct.

Missed checking Tue Jan 28 at 2100 on IRRS via AM Italia 1323; anyone hear it? Next:

0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2279 monitoring: ``From: Richard Lemke, St. Albert, Alberta, Canada, the desk of Richard's listening Post, Radio: JRC NRD-535 HF, Antenna: random long wires in the trees. WRMI, USA, World of Radio #2279, 9395 kHz, QSB fading, static QRN, changeable reception, 0031, 0044, 0045, 0058 (4-55433), (55433), 0059, January 29 UTC 2025 [Wed] (Lemke, Richard -AB) Typed, January 29, 2025, 73's, Richard Lemke, 7:42 am``

Also confirmed UT Wednesday January 29 at 0030 on WRMI 9395, S7/9+10 into S Texas SDR.

Also confirmed UT Wednesday January 29 at 0030 on SW Radio, Germany, 3975.002-, S8/9+5 into UTwente.

Also confimred Wednesday January 29 at 2030 on SW Radio, Germany, 3975.002+, S9/+10 into UTwente.

Also confirmed Wednesday January 29 at 2200 on WBCQ, 7490-, S9/+10 JBA vs noise level direct. Next:

0130 UT Thursday WRMI 5010 to S {confirmed};
1730 UT Thursday SW Radio, Germany 3975.

Thanks this week for a contribution from Michael Beu, KD5DSQ, Austin TX in US funds but not necessarily, via PayPal to woradio at yahoo.com and says, ``Thanks, Glenn, for your efforts with WOR - info provided much appreciated. HNY and Good DX for 2025.``

One may also contribute by MO or check in US funds on a US bank to Glenn Hauser, P O Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. Pre- `AAAWWW` chex of WBCQs, UT Sat Jan 25 at 0041 via Maryland remote, as NH is offline in opposition to some CW contest: 3265, 5130 ad 6160 nosigs. 7490 -75 Hz = 7489.925, S9+5/20 with FKB. At *0055 5130 comes on with IS & IDs for WBCQ The Planet, and -4 Hz = 5129.996! At 0100, 7490- with WTO, Allan`s first exclamation over theme is ``radio that powerful``. 5130 seems on but JBA; 6160 still seems off? In Florida it`s wintry cold. First lauding Drumpf and urging everyone to put aside partisan politix for two or four years, yeah, sure. And mentions that this time they are also on 9330, the WLCR SuperStition, which is S+15/20 into Maryland; at best with full wire antenna here, S9 and ``hollow``, and useless into portable: I bet it`s still aiming at Brasil, when they are always weakest here off the side. I`ve always wondered why he didn`t reserve an hour or few on the S.S. for BCQ programming other than WLCR! 6160 is now on with something else. 0113 a radio tune, ``The Sports`` is that the title? 0124, says 6160 now is carrying `The Intelligence Report`.

Trying to get Continental to sponsor some SW programming. Cont`l is working on a totally solid-state SW transmitter up to half a megawatt. BCQ`s has a TH576 Thalès tube from France. The 420-D transmitter is all water-cooled, and very computer-centric: everything is operated by computer. 0129 datestamp as 24 January YOOLF 2025, live from Studio 9 in Deland of Fla. 0130 plays a song for Angela. 0133 ``free speech radio, peace and understanding``. They haven`t planned what music to play, but instead fiddle around on the air between tunes, sotto-voce. 0135 ``Love, Sweet Love``. 0139 ``Downtown`` by someone who can`t really sing, Mrs. Miller? Some of these are listener requests rather than from Angela, but at 0142 Angela`s favorite song, not identified but I recognize ``Baby Elephant Walk``. 0146 IDs again as trimulcasting. 0147 tune named ``War``? 0152 someone wants to know the azimuth of 9330 now; unknown, ask Jason? 0153 ``Pilot of the Airwaves`` song. Emails. 0159 prayer. 0200.4 JIP Hal Turner on 7490-, also supposed to be on 6160-. 9330 goes back to WLCR in Portuguese. At 0201, 5130- still on as Oxycontin? Radio, F-bombs, Yahweh, yahweh, yahweh parody till 0203* (Glenn Hauser, OK, WOR)
** U S A. Since CBS dispensed with 60 Minutes for yet another stupid ballgame, clear to hear `Le Show` with Harry Shearer via WBCQ 7490 stream. Toward the end, Harry coined a much-needed neologism for the next quadriyear, in case any president should also be a convicted felon: FELODENT!! (Glenn Hauser, OK, WOR)

** U S A. 9395, UT Fri Jan 24 at 0100-0200, WRMI with `Canadian Content Radio`, which Sean Welsh advised would be going on hiatus after this week`s run with several repeats. Was all the music really Canadian? Or is it just music the Canadian host likes.

5850, UT Fri Jan 24 at 0200-0238+, this WRMI playing various pop music, no announcements, instead of `Encore` classical music as Brice Avery just publicized would be starting its run this week, Still shows on the WRMI skedgrid for System D (Glenn Hauser, OK, WOR)

** U S A. 15770, 9955, 9455, 9395, 7780, 7730, 7570, 5950, 5850, 5800, 5050, 5010, Jan 25 at 0606, ALL WRMI transmitters are OFF. Checking now following this report via Alan Pennington: ``0320 UTC January 25 - Due to extremely cold temperatures in the Okeechobee area, a main power line has gone down, so all of our frequencies are off the air (except our Internet stream on 9955 kHz). Florida Power & Light has dispatched a crew to find and repair the problem, but it could take up to several hours. WRMI will go back on the air as soon as electrical power is back on here. Thanks for your understanding. (WRMI Facebook 25 Jan) At 5:30 am Eastern Time (1030 UTC) January 25 power returned and WRMI is back on the air! (WRMI Facebook 25 Jan)`` (Glenn Hauser, OK, WOR) WRMI: See also ARGENTINA [non], VANUATU [and non]

** U S A. 5921-5949, Jan 23 at 0725, approx. range of multiple spurs out of S9+50 WWCR 5935 with PMS, i.e. +/- 14 kHz. Tuned to middle, one also hears squealing edges. Something`s not normal at Nashville (Glenn Hauser, OK, WOR)

** U S A. 9275, Jan 27 at 0345, WMLK, S9+30/40 of ``bilge`` as Ralph Perry rates their output; accompanied by squealy spurs +/- only 5 kHz, so better than some brethren (Glenn Hauser, OK, WOR)

** U S A. 9265, Jan 29 at 0250, WINB, S9+25 with squeals - not noticed this particular defect on 9265 before (Glenn Hauser, OK, WOR)

** U S A. 1070, Jan 27 at 0316 UT, dead air except for a low roar, must be from my nearby dominator, KFTI Wichita (Glenn Hauser, OK, WOR)

** VANUATU [and non]. 9960, Jan 26 at 0754, JBA talk, as RV is still

on past previous 0658* as also reported last night by several. Now 9955 WRMI is equally JBA, unlike much stronger 9395 (Glenn Hauser, OK, WOR)

** VANUATU [and non]. 9960, Jan 29 at 0657, S6/S8 talk in presumed Bislama, RV better than usual, but off at 0729 check rather than running over as last few nights. 9955 WRMI undermodulated at S9+26, not a problem. BTW, WRMI skedgrids are now ``effective Jan 26, 2025`` tho individual System blox still show March 10, 2024 (Glenn Hauser, OK, WOR)

** VATICAN. 15565 // 13830, Sun Jan 26 at 1550, VR Amharic synchronized so from same site SMG as listed, despite huge signals especially on 15565 as if aimed thisaway instead of thataway (Glenn Hauser, OK, WOR)

** VATICAN. 9885, Jan 27 at 0349, S9+20/30 in excited African language with gunfire, screams, drama? Per EiBi, 0330-0430 is VOA KNK via SMG to E Africa, i.e. Kirundi/Kinyarwanda. That explains the bigsig, more of it over here than there, I suspect. Violating Separation Of Church And State (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 212 MCW kHz, Jan 23 at 0739 UT, JBA carrier. Used to get something here but not for a long time. Too many possibilities in RNA roster, those last heard in late `24 or early 2025: YGX Gillam MB, VP ValParaíso IN, UC Union City TN, HP Hammond LA. I did log YGX maybe Nov 24, 2021 and definitely Oct 17 & 5, 2021 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 272 MCW kHz, Jan 26 at 0739 UT, JBA carrier the only something of interest on the LW beacon band: too many possibilities but most likely by proximity: LD Lubbock TX, RU San Marcos TX; IK Kankakee IL, or OLY Olney IL (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 518 kHz, Jan 29 at 0708 UT, sounds of NAVTEX. Far too many choices in complex scheduling, but presumably something closest: https://dxinfocentre.com/navtex.htm
(Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1290, Jan 27 at 0740 UT, open carrier atop the pile. Closest are KUOA AR, KWFS TX, but less than 100 watts at night; and KMMM Pratt KS with 500 W; KOIL Omaha NE has 5 kW but supposedly direxional away (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 5896.5 SSB, Jan 29 at 0157 VG loud and clear signal talk in English: at first thought a broadcaster off-frequency, until ``out``. MARS or something. Must avoid times WWCR is on 5890, never noted while it`s on. Klingenfuß 2022 has nothing on this exact frequency. UDXF iog has only five hits 2015-2020y as USAF MARS and/or FEMA net (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9236, Jan 27 at 0343, S9+30 open carrier except for clix exactly once per second, maybe practicing to be time signaler but no minute markers; the clix are also audible out to 9223/9248 on two different antennas, i.e. +/- 12/13 kHz. Whatzit? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 12169-12213 approx., Jan 29 at 1629, wideband multi-carrier, multi-tones peaking about 12202 at steady S9+26. Just far enough above 12160 not to bother WWCR. Same sounds as long heard circa 17450, quite weak right now; and several other ranges. What is this? (Glenn Hauser, OK, WOR)
